5. Paragraph 9 of the BPA is hereby changed to replace the "Single-User license ("per copy")" paragraph with the following:

Single-User license ("per copy") is a license to use the Software in perpetuity on only one computer and used by only one user at a time. If the computer on which this Software is loaded is attached to a network, this Software must not be accessible by any other user on such network. License includes free technical support for as long as the current Minitab Statistical Software release is generally distributed by Minitab, and one year thereafter, access to "Meet Minitab" an on-line introductory manual and one copy of the software on CD media or free electronic delivery. New releases of Minitab Software products occur approximately every three years. As of the date of Modification P00008 to this BPA, the current version available for purchase is Minitab Statistical Software, R16, which was released in May 2010, and Quality Companion, 3.2, which was released in October 2009. Upon release of a new software version, customers may continue to use their current version of the software, but will only receive free technical support for that version for a period of one year thereafter. Customers wanting to upgrade to the new version may purchase an upgrade license (refer to Attachment A). NOTE: Single-user copies which are purchased within the 30 days prior to a new release of the software will automatically be sent a free upgrade to the newer release.
