Blanket Purchase Agreement DoD Enterprise Software Agreement (ESA)

In the spirit of the Federal Acquisition Streamlining Act, the Department of Defense (DoD) and Dell Marketing L.P. (the Contractor) enter into an agreement to further reduce the administrative costs of acquiring commercial items from the General Service Administration (GSA) Federal Supply Schedule (FSS) Contract GS-35F-4076D.

FSS Contract Blanket Purchase Agreements (BPAs) reduce contracting and open market costs such as: search for sources, the development of technical documents, solicitations, and the evaluation of bids and offers.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the Government that works better and costs less.

The Enterprise Software Initiative (ESI) is a joint DoD project to develop and implement a DoD enterprise process. This BPA is issued in the spirit of the policy and guidelines provided in the Defense Federal Acquisition Regulation Supplement (DFARS) Section 208.74.

Attachments to this agreement are:

- Attachment A - Product and Price List
- Attachment B - Dell Program Agreement
- Attachment C - Microsoft License Agreement/Product Use Rights
- Attachment D - Report of Sales – Standard Format
- Attachment E - Fees and Payments

A. TERMS AND CONDITIONS

1. Pursuant to GSA FSS Contract Number GS-35F-4076D, Dell Marketing L.P. agrees to the following terms of a Blanket Purchase Agreement (BPA) with the Naval Inventory Control Point (NAVICP). All orders placed against this BPA are subject to the terms and conditions of the FSS Contract.

2. Extent of Obligation. The Government estimates, but does not guarantee, that the volume of purchases through this agreement will be \$100M. The Government is obligated only to the extent of authorized purchases actually made under this BPA. There is no minimum order guarantee.

3. Funds Obligation. The BPA does not obligate any funds. Funds will be obligated on each delivery order.

4. BPA Term. The BPA expires upon completion of all enrollments made within the specified ordering period. BPA term is contingent upon the Contractor maintaining or renewing a GSA FSS Schedule and the BPA will be reviewed annually. The open ordering period is 4/01/2010 through 3/31/2013. Ordering of New and Renewal Desktop Configurations (new enrollments) and Single Products expires on 3/31/2013. Enrollments (for New and Renewal desktop configurations) that are made during this open ordering period may be renewed under this BPA in the second and subsequent year of the respective enrollment until full payment has been made and the term of the enrollment has expired. Such renewals may be executed after

the BPA ordering end date of 3/31/2013 provided the initial enrollment was executed during the open ordering period and the Ordering Office determines that the underlying GSA Schedule is still valid, in addition to any other required determinations, at the time the order option is exercised.

5. Software License. Software licenses purchased under this BPA are perpetual software licenses subject to the terms of GSA Schedule Special Item Number (SIN) 132-33. Ordering offices should note that software use rights are further defined in the Microsoft License Agreement/Product Use Rights (PUR) in effect at the time of order placement. The PUR dated January 2010 is in effect at the time of this BPA issuance (or modification) and is included as Attachment C to the BPA for reference purposes. Orders issued under this BPA or future purchases of product under existing orders may be subject to updated versions of the PUR as new products are introduced, however, such new versions may not provide for detrimental changes in use rights to those stated in the PUR in effect during the term of an existing order. Refer to the GSA Schedule and PUR for a full explanation of which use rights apply. Microsoft makes regular updates to the PUR and ordering activities are responsible for determining applicability and obtaining a copy of the PUR that is current at the time an order is issued. The Order of Precedence for resolving any inconsistency between the Commercial Software License and the GSA contract terms shall be as specified in the GSA contract's Commercial Item clause, FAR 52.212-4. The provisions of FAR 52.212-4, as required by Federal law, shall prevail over any terms of the commercial license.

Additional license grants applicable to the desktop configurations and any additional products that are enrolled with the desktop configurations are listed in the Program Agreement included as Attachment B to this BPA.

Proof of license shall be provided to the end use customer. The Dell purchase invoice serves as proof of licensing.

6. Software Distribution. License prices do not include media that may be required for installation of the software. Pricing has been provided for media and documentation under individual CLINs, however, some products may be open market items and not available on GSA Schedule. All such products are clearly identified "open market item". Orders under this BPA may include media and documentation when purchased in accordance with the following standard GSA terms. For administrative convenience, open market (non-contract) items may be added to a FSS BPA or an individual order, provided that the items are clearly labeled as such on the order, all applicable regulations have been followed by the *ordering activity*, and price reasonableness has been determined by the *ordering activity* for the open market (non-contract) items.

For single product orders where media is purchased, shipment will take place directly from Microsoft within 48-72 hours of order submission from Dell to Microsoft. Microsoft uses a combination of shipment methods including postal delivery and customers should expect to receive the media approximately 7 days from ship date.

For new Microsoft Enterprise Agreements (license with Software Assurance) that exceed 250 desktops, customers will receive, at no charge, a single media comprehensive kit and subscription that will provide updates for the agreement term. Delivery times are similar to single products.

7. Software Assurance (Maintenance). The term of Software Assurance is three years which is consistent with the product offering and pricing on GSA Schedule. Coverage shall commence upon purchase by the end user and continue for a three-year term. While Software Assurance grants users the right to upgrades and updates, customers must request such upgrades or updates by downloading web accessible information or purchasing the media. The Contractor shall provide notice of update/upgrade

availability on the contractor web site and notify the service program offices via email. Email notices shall be furnished to renee.rothlein@navy.mil, adelia.wardle@us.army.mil, susan.lizzi@dla.mil, HQ754ELSG/ESTFinancials@gunter.af.mil and jonnice.medley@disa.mil.

8. Pricing Terms. Attachment A provides all BPA products and prices. BPA prices have been discounted from the GSA Schedule prices that are currently in effect. The BPA discount is not subject to change during the term of this agreement, however the BPA prices may fluctuate based on changes to the underlying GSA Schedule prices. Spot discounting is encouraged and all Microsoft promotions shall be offered on orders placed against this BPA. The prices on the BPA will be reviewed annually, or as required to determine whether a reduction is appropriate in accordance with the price reduction provisions of the agreement.

A 2% Acquisition, Contracting, and Technical (ACT) Fee shall be included in the prices published in Attachment A. The Contractor shall be responsible for the payment of all fees that are included in the product pricing (i.e. GSA IFF, ACT), as calculated on the customer orders.

The Product and Price List, Attachment A includes desktop configurations and single products as summarized below. The specific terms relating the new and renewal desktop configurations are fully explained in the Program Agreement, Attachment B to the BPA.

8.1 Single Products (CLINS 0001 thru S006). The products included in Attachment A may be purchased at the stated unit prices which include a 1% discount from GSA Schedule. Software Assurance coverage will continue for three years from the date of purchase, however, the full purchase price must be paid when the products are initially ordered.

8.2 Desktop Configurations (CLINs 1110 - 1139 and 2080 - 2099). The desktop configurations included in Attachment A may be purchased under an Annual Payment Schedule or a Lump Sum Schedule. The initial purchase of a desktop configuration is an Enterprise Agreement enrollment. An enrollment can be made for either new desktop configurations or renewal desktop configurations. An enrollment of new desktop configurations includes license and three years of software assurance. An enrollment of renewal desktop configurations includes three years of software assurance only. See Attachment B for the specific terms and conditions relating to purchase of desktop configurations.

8.2.1 Annual Payment Schedule. This purchase plan provides for three annual payments for enrollments purchased within the BPA ordering period. The second and third payments will be due on the anniversary date of the initial purchase. Note that the term of the enrollment can vary based on customer requirements. Buyers should consider the use of options when issuing orders with an annual payment schedule and are responsible for compliance with all fiscal laws. Note that perpetual license rights do not convey for the full quantity of ordered licenses unless the full three year enrollment term is completed. The effect of an enrollment termination (failure to exercise an option) is fully explained in Attachment B. The following examples are provided to illustrate the rights acquired under a desktop configuration Enterprise Agreement enrollment.

Example 1 – New Desktop Configurations: Nine new software licenses are required. Under a three year enrollment that uses an annual payment schedule, perpetual use rights convey each year for one third of the license quantity --

- Year 1** The base year included in the order acquires the following rights for the nine licenses:
- Perpetual use rights for three licenses
 - The right to use the remaining six licenses for the base year
 - Software Assurance coverage on all nine licenses for the base year

Option (Year 2) The option year, if exercised, acquires the following rights:

- Perpetual use rights for three licenses already exist based on the base year payment
- Perpetual use rights for an additional three licenses
- The right to use the remaining three licenses for the exercised option year
- Software Assurance coverage on all nine licenses for the exercised option year

Option (Year 3) The option year, if exercised, acquires the following rights:

- Perpetual use rights for six licenses already exist based on base and option year payments
- Perpetual use rights for the remaining three licenses
- Software Assurance coverage on all nine licenses for the exercised option year

Example 2 – Renewal Desktop Configurations: Software Assurance is required for nine software licenses for which perpetual use rights have already been purchased. Under a three year enrollment that uses an annual payment schedule, Software Assurance benefits are provided for each year that payment is made --

Year 1 The base year included in the order acquires Software Assurance coverage on all nine licenses for one year.

Option (Year 2) The option year, if exercised, acquires Software Assurance coverage on all nine licenses for the exercised option year

Option (Year 3) The option year, if exercised, acquires Software Assurance coverage on all nine licenses for the exercised option year

8.2.2 Lump-Sum Payment Schedule. This schedule is for one lump sum, up-front payment for all three years. Software Assurance for all components of the desktop configuration is provided for three years. Discounts have been taken into consideration in the overall price of the BPA.

9. Price Reduction

9.1 Most Favored Customer Prices. The prices under this BPA shall be at least as low as the prices that the Contractor has under any other contract instrument under like terms and conditions. If at any time the prices under any other contract instrument become lower than the prices in this BPA, this BPA will be modified to include the lower prices.

9.2 SmartBUY Transition. OMB has announced the SmartBUY initiative to maximize cost savings and achieve best quality when acquiring software. The GSA is the designated Executive Agent for SmartBUY. The initiative will establish software enterprise licensing on a government-wide basis. If during the term of this ESA, Microsoft and/or its resellers enter into a government-wide agreement with the GSA under the SmartBUY Initiative, which includes pricing for the specific products or services under similar terms and conditions as those licensed by the DoD, the DoD shall not be precluded from licensing products or purchasing services under a SmartBUY agreement.

10. Functionality Replacement and Extended Support. If the form, fit, or functionality contained in any licensed products acquired hereunder is substantially reduced or if the product is replaced, and/or (the contractor), provides this same or substantially similar functionality as a separate or renamed product, then the DoD is entitled to license such software at no additional license or maintenance fees. However, throughout the term of this agreement, the contractor will provide support services for a period of one year.

11. Rights of Survivorship of the Agreement. This Agreement shall survive unto Dell Marketing L.P., its Successor, rights and assigns. The software and agreement terms and conditions as covered under this agreement shall survive this agreement notwithstanding the acquisition or merger of Dell Marketing L.P. by or with another entity. Any software name changes, re-packing or merger of similar products that carry forward the same or similar function of the software shall be supported with updates, upgrades and new releases under this agreement at no additional cost.

12. Technology Improvement. The Government may solicit and the BPA holder is encouraged to propose independently, technology improvements to the BPA. Proposals shall be submitted by the BPA holder and include a description of the products and/or services, an electronic copy of the pricing tables, technical literature that describes the products and/or services, and evidence of inclusion on GSA Schedule. Pricing shall include discounts from GSA Schedule at the same or greater level as the original BPA product prices.

13. Substitution and Technology Refreshment. If at any time during the life of this BPA, the original manufacturer of the equipment (includes software, hardware and firmware) schedules the products for discontinuation, improvement and/or replacement, the BPA holder shall provide a proposal to include the new or revised products on the BPA under the appropriate line items. Proposed prices for new or revised products shall be constructed in accordance with paragraph 9 of this BPA for most favored prices. Discounts shall be at the same or greater discount level as the original BPA product prices. Proposals shall be submitted to the Contracting Officer within seven (7) days of the BPA holder's awareness of the OEM's intent. Improvement of product includes new releases, updates, upgrades including additional features and functionality, and successor or upgrade products.

- b. If the required software rights or maintenance are not available from inventory or from an ESA, you may use an alternate method of acquisition, subject to laws and policy.
- c. If the required software rights or maintenance are not available from inventory but are available from an ESA, you must follow the procedure in the DFARS Section 208.74.
- d. If you must obtain the software or software maintenance outside the DoD ESA, you may seek a waiver from a management official designated by your DoD Component.

PMR agenda and presentation format shall be provided prior to each PMR. Travel expenses are the responsibility of the Contractor.

6. Sales Leakage. The goals of the ESI Program can only be realized through cooperation between the Government and the Contractor to direct appropriate sales through the ESI vehicles. The Contractor shall ensure that all sales personnel are aware of the ESI Program and enforce the policy that this BPA is the preferred procurement vehicle for the products within. The Contractor shall also establish a process to regularly audit sales to Government buyers, determine where sales outside the ESI vehicle are occurring, and take appropriate action to direct further sales through the ESI vehicle. Results of these audits will be presented as an agenda item during PMRs.

7. Marketing. The Contractor shall dedicate reasonable resources to this effort and work to market and advertise this agreement. Desired actions include: advertising resultant vehicles on the Contractor's Internet site and advertising the agreement at relevant trade shows, participation in DoD Component sponsored events and news media geared to Government/DoD IT people.

F. STANDARDS

1. YEAR 2000 Compliance. All products provided under this BPA shall be Y2K compliant as defined in FAR 39.002.

2. DISR Compliance. All products offered shall comply with appropriate standards enumerated in the DoD IT Standards Repository (DISR). The DISR is maintained by the DoD Executive Agent for IT Standards, and the mandated compendium can be obtained from Mr. Dave Brown 703-681-2556;

dave.brown@disa.mil. The DoD IT standards management tool, DISRonline is available for use by CAC-equipped authorized parties and can be accessed for account requests at <https://disronline.disa.mil>.

3. Common Security Configurations. The provider of information technology shall certify applications are fully functional and operate correctly as intended on systems using the Federal Desktop Core Configuration (FDCC). This includes Internet Explorer 7 configured to operate on Windows XP and Vista (in Protected Mode on Vista). For the Windows XP settings, see: http://csrc.nist.gov/itsec/guidance_WinXP.html, and for the Windows Vista settings, see: http://csrc.nist.gov/itsec/guidance_vista.html. The standard installation, operation, maintenance, updates, and/or patching of software shall not alter the configuration settings from the approved FDCC configuration. The information technology should also use an installer service for installation to the default "program files" directory and should be able to silently install and uninstall. Applications designed for normal end users shall run in the standard user context without elevated system administration privileges.

Publisher shall also certify that any subsequent product/module for the life of the agreement is/are fully functional and operate correctly as intended on systems using Federal Desktop Core Configuration (FDCC) prior to any product/module revisions being made available for Government use. Further, the Publisher shall maintain operability with FDCC standards as they evolve.

4. Net-Centricity. The Department of Defense is transforming the way information is managed to accelerate decision-making, improve joint warfighting and create intelligence advantages. To reach this "Net-Centric" state, DoD must exploit advancing technologies that move the enterprise from an application centric to a data-centric paradigm. DoD ESI vendor partners are encouraged to use the OSD NII DCIO Net-Centric Checklist, located at http://www.defenselink.mil/cio-nii/docs/NetCentric_Checklist_v2-1-3_.pdf, to provide information on the Net-Centric posture of their IT products and services.

5. Section 508 of the Rehabilitation Act Compliance. All products provided under this BPA must meet the applicable accessibility standards at 36 CFR Part 1194 as required by FAR Case 1999-607. General information regarding the Section 508 Act can be found at www.section508.gov. Microsoft Section 508 compliancy information can be found at <http://www.microsoft.com/enable/microsoft/section508.aspx>

6. Additional Clauses. Orders issued against this BPA are subject to the clauses included in the underlying GSA Schedule and the additional DFARS clauses listed below that are incorporated by reference in this BPA. Ordering Offices should consider the requirements of DFARS and the FAR supplement of the end user component, as it applies to commercial item acquisition and use of GSA Schedules, in determining what additional clauses may be required for incorporation in the delivery order issued by the Ordering Office.

The following FAR/DFARS clauses and provisions are hereby incorporated by reference with the same force and effect as if it was given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at these addresses:

PROGRAM AGREEMENT

This is a volume licensing program for Department of Defense (DoD) Enterprise Software Initiative (ESI) agencies to acquire new and renewal desktop configuration enrollments. The prices in this program agreement recognize all agencies that are authorized to order under BPA N00104-02-A-ZE83 as a collective organization. Any reference to "DoD ESI agency", "agency", or "affiliate" in this document means any entity defined as an Authorized User under the BPA.

PROGRAM OFFERING:

This program allows an agency to standardize the desktops in their organization at a greatly reduced price (based on purchasing separate products under the GSA Schedule, or other similar vehicle). Special volume discounts are provided for the following Desktop Product Configurations:

1. Enhanced Desktop Configuration (Desktop Pro):
 - a. Operating System Upgrade
 - b. Office Professional Plus
 - c. Core CAL
 - d. Provides product upgrades and updates to the above products for three-year term of enrollment.

2. Enhanced Desktop Configuration with SQL:
 - a. Operating System Upgrade
 - b. Office Professional Plus
 - c. Core CAL
 - d. SQL CAL
 - e. Provides product upgrades and updates to the above products for three-year term of enrollment.

3. Enhanced Desktop Configuration with Enterprise CAL:
 - a. Operating System Upgrade
 - b. Office Professional Plus
 - c. Enterprise CAL
 - d. Provides product upgrades and updates to the above products for three-year term of enrollment.

Purchase of the Desktop Product Configurations listed above is considered an enrollment under the Microsoft Enterprise Agreement licensing program. Each agency may have its own enrollment with the contractor that reflects their own product mix, term of enrollment, and payment terms specific to each individual agency, component, commission, etc. that is supported by the DoD ESI Working Group. Individual enrollments may include other Microsoft products in addition to the desktop configurations. These additional products are available under the annual payment option only if the customer enrollment includes a desktop configuration. The program terms and conditions specified herein will apply to additional products meeting these criteria.

The Microsoft Enterprise Agreement enrollment includes a three year term. Contracting organizations may need to consider the use of options when issuing orders with an annual payment schedule. Fixed priced options may also be appropriate if there is a need to purchase additional products over the term of the Enterprise Agreement.

The Microsoft Enterprise Agreement (EA) licensing plan assigns a unique part number to the products found on GSA Schedule. Vendors are encouraged to include both the GSA part number and the manufacturer's EA part number in quotations to assist end users.

ENROLLMENT PERIOD:

This volume discount offering is available to the DoD ESI member agencies between 4/01/2010 and 3/31/2013. This is the Open Enrollment Period for the BPA. DoD ESI member agencies may enroll new and renewal desktop configurations during this period.

ENROLLMENT ELIGIBILITY:

1. New Desktops (License and Software Assurance): Customers are eligible to purchase new desktop configurations prior to 4/01/2013 at the stated BPA prices. In order to qualify for this enrollment, the desktops must:
 - a. Be supported by the DoD ESI Working Group as defined in the BPA Paragraph B.1, Authorized Users, and
 - b. Have one of the following existing operating systems: Windows 98, Windows NT Workstation, Windows 2000 Professional, Windows XP, Windows Vista or Windows Professional 7.
2. Renewal Desktops (Software Assurance): Customers are eligible to purchase renewal desktop configurations prior to 4/01/2013 at the stated BPA prices. Software Assurance may be ordered for the product configurations without the need to simultaneously order a License under the conditions specified below. The renewal enrollment **must become effective no later than the day following the date of expiration** of the existing Software Assurance. In order to qualify for this enrollment, the desktops must:
 - a. Be supported by the DoD ESI Working Group as defined in the BPA Paragraph B.1, Authorized Users, and
 - b. Be properly licensed (existing perpetual license) for all products and components of the applicable desktop configuration. If applicable, all payment obligations under an Enterprise Agreement enrollment must have been met, and
 - c. Be currently enrolled in Software Assurance for all products and components of the applicable desktop configuration. **IMPORTANT NOTE:** In the event that the expiring Software Assurance coverage was not purchased from another Enterprise Agreement, a **Proof of Eligibility may be required by**

the contractor. The Proof of Eligibility is a written notice from the Contracting Officer that states that “*NAME OF AGENCY, AND ANY NAMED AFFILIATES* (enrollee) is properly licensed for all of the components of the desktop configuration and is eligible to enroll under the applicable product configuration renewal item.”

HOW TO ENROLL:

In order to participate in this program, each agency must submit a properly executed purchase/delivery order for the first annual payment and the required enrollment information. This purchase order should incorporate the formal Dell Marketing L.P. quotation reflecting the desktop configuration being ordered as well as any additional products being incorporated into the Enterprise Agreement.

Required Enrollment Information

For either new or renewal Enterprise Agreements of any desktop configuration, the enrolling customer must provide full contact information for the individual that will be responsible for managing the license agreement and administering the Software Assurance Benefits that are an integral part of a Microsoft Enterprise Agreement. It is possible to change contact information later on, but this information should be provided with or as soon as possible following the award of the agreement as it is necessary to complete the enrollment process with Microsoft.

The name of the Agency should include the top level DoD component as well as a more granular description of the actual end user agency. Simply saying that the enrollment is for the Department of Defense is not sufficient. Your Dell Account manager can provide guidance with this process to ensure accuracy.

TERMINATION PROVISIONS:

Terminations are applicable to specific enrollments and do not affect any enrollment not otherwise terminated. Any terms of this agreement applicable to any enrollment not otherwise terminated will continue in effect with respect to that enrollment. Use of the word “termination” in this document includes the Government’s unilateral right to not exercise an option.

Termination of an enrollment.

The word “termination” as used in these “TERMINATION PROVISIONS” includes all situations where the Government elects to not make an installment payment, i.e. does not exercise an option. The government may terminate an enrollment for convenience. Either party to an enrollment may terminate if the other party materially breaches its obligations under this agreement, including any obligation to submit orders or pay amounts owed (even if such non payment is caused by non-appropriation of funds to an enrolled affiliate). For terminations that are due to a material breach, the terminating party must give the other party 30 days notice and opportunity to cure except where the breach is by its nature not curable within 30 days. If an enrolled affiliate ceases to be an affiliate of the agency, the agency must promptly notify the contractor of this fact, and the enrollment may be terminated.

Effect of termination or expiration.

If the termination or failure to exercise an option is for a desktop enrollment, the government agency may immediately pay the total remaining amount due, plus all installments that have not been paid, in which case the enrolled affiliate will have perpetual licenses for all copies of the products that were ordered for it. As an alternative, the government agency may pay only amounts due and payable as of the termination date, in which case the enrolled affiliate will

have perpetual licenses for (i) all copies of all products for which payment has been made in full, and (ii) the number of copies of products for which payment has been made in installments that is proportional to the amount that was paid as of the termination date. No termination charges shall apply and no additional payments beyond the termination date are required.

If the enrollment being terminated is for renewal of Software Assurance, the effect of termination is that said Software Assurance coverage will cease on the anniversary date of the enrollment, when payment for the first or second option year (i.e., installment year) would otherwise have been due. No termination charges apply and payment for Software Assurance coverage beyond the termination date is not required. The enrolled affiliate will retain 100% of the licenses that existed at the inception of the agreement. In addition, the customer receives the right, for products covered in the renewal enrollment, to deploy any and all upgrades that became commercially available during the coverage term for which payment was made in full.

ADDITIONAL LICENSE TERMS:

The following additional license terms apply to all desktop configurations and additional products purchased as part of a desktop enrollment.

Transfer Rights. The transfer rights granted in the Microsoft License/Product Use Rights are clarified to permit the transfer of fully-paid perpetual Licenses from an agency of the U.S. Government to another agency of the U.S. Government which includes the right to transfer among DoD Agencies as well as among DoD components within Agencies. Transfer is also permitted from a U.S. Government agency to an unaffiliated third party in connection with (i) a privatization of the government agency or of an operating division of an Enrolled Affiliate or one of its government agency affiliates, (ii) a reorganization, or (iii) a consolidation."

License copies for training, evaluation, research and development (including Research Labs) and back-up. During the term of the enrollment, each enrolled affiliate and any agency affiliate included in its enterprise may (i) run up to 20 complimentary copies of any additional product in a dedicated training facility on their premises; (ii) run up to 10 complimentary copies of any product for a 60 day evaluation period; (iii) run complimentary copies of enterprise products and additional products on 1% of the enrolled affiliates qualified desktops for research and development purposes; and (iv) make and retain one complimentary copy of any licensed product for back-up or archival purposes for each of their distinct geographic locations.

Temporary Use of Software During Times of Conflict. During Temporary Expeditionary Deployments ("TEDs"), an enrolled affiliate during the term of this agreement may temporarily deploy and install or use on, or access from qualified desktops or servers, the, Standard Desktop Configuration, Enhanced Desktop Configuration, Enhanced Desktop with SQL Configuration, Enhanced Desktop with Enterprise CAL Configuration, or Enterprise Desktop Configuration and the additional products, all described in Attachment A (the "Software") on an unlimited number of qualified desktops or servers being used as part of the TEDs ("Temporary Use"). For purposes of this subsection, the term "Temporary Expeditionary Deployments" or "TEDs" shall refer to any number of software licensed products enrolled under this agreement which may be used at no additional cost by the DoD enrolled affiliate. The coverage will extend to deployments away from in-garrison locations (any military post or government office where troops or civilian government personnel are at a permanent location), deployment locations in support of war games, exercises, real world contingencies, and emergency situations similar to

the terrorist attacks on 9/11/01 where temporary duty stations were needed due to the destruction of government offices. Each enrolled affiliate will make a record of the count of each category of license used while deployed and the period of use. After the TED and upon request, the count and duration information, but not the deployed location information, will be provided to the contractor for auditing purposes. Such Temporary Use of the software is limited to a period equal to the length of the TED or six (6) calendar months, whichever is shorter ("Temporary Use Period"), unless a different time period is agreed to in writing by the contractor. At the end of the six month period or as mutually agreed to, the DoD enrolled affiliate will provide a written certification that the licenses have either been destroyed or payment has been made under this agreement. The enrolled affiliate agrees to use the products in accordance with the terms contained in this Agreement and the applicable version of the License Agreement - Product Use Rights. If the DoD enrolled affiliate requires use of the Software beyond the Temporary Use Period and Microsoft has not approved such extended use, the enrolled affiliate shall purchase the products in accordance with the pricing terms of this Enterprise Agreement.

GFE Non-Portable Computer Use Rights. DoD has adopted a Teleworking Policy which implements the requirements of Section 359 of Public Law No. 106-346 (reference A), which requires each Executive Agency to establish a policy under which eligible employees of the agency may participate in teleworking to the maximum extent possible without diminished employee performance. Enrolled affiliate shall have the right to grant to those persons participating under the DoD Teleworking Policy and who have been issued a Government Furnished Equipment (GFE) non-portable desktop in lieu of portable computer, the portable use rights under the applicable License Agreement – Product Use Rights. The portable use rights will apply to such GFE desktop or to a portable computer but not both.

Copies necessary for internal deployment. Each enrolled affiliate may make as many copies of the products licensed under the enrollment as necessary to distribute the products to the users within its enterprise. All copies of any product must be true and complete copies (including copyright and trademark notices) and be made from CD-ROMs, disk sets or a network source, acquired from or made available by a Microsoft approved fulfillment source for that product. Each enrolled affiliate may also have a third party make and distribute copies in its place, but the enrolled affiliate is responsible for third-party actions to the same extent it would be if the third party were its employee. Enrolled affiliates must make reasonable efforts to make employees, agents and other individuals running a product aware that the product is licensed from Microsoft and may only be run or transferred subject to the terms of this agreement and the License Agreement/Product Use Rights.

Re-imaging rights. If an enrolled affiliate or any affiliate included within its enterprise has licensed products from an original equipment manufacturer (OEM), through a retail source or under any Microsoft program other than this Enterprise Agreement program, it may use copies made from the media provided under this Enterprise Agreement enrollment in place of any copies made from the media provided through that separate source, so long as it complies with the following restrictions.

(i) The enrolled affiliate must have obtained a separate license from the separate source for each copy being replaced.

(ii) The product, language, version and all components (in the case of product suites, such as Office) of the copies made from the media provided under an enrollment must be identical to the product, language, version and all components of the copies they replace.

(iii) In the case of copies licensed from an original equipment manufacturer (OEM) or through a retail source, in addition to the other conditions outlined in this subsection, the product type (e.g. upgrade or full license) of the copies made from the media provided under an enrollment must be identical to the product type of the copies they replace. However, an enrolled affiliate may use copies of a desktop operating system made from the media provided under the enrollment in place of copies of the same desktop operating system obtained from a separate source, even though they may be of different types (i.e. one may be an upgrade and the other a full license), provided that the product, language and version are identical.

The use of any copies made under this subsection is subject to the terms and use rights provided with the copies being replaced, and nothing in this section creates or extends any warranty or support obligation.

FEES AND PAYMENTS

- 1. GSA Industrial Funding Fee (IFF).** The BPA unit prices include a markup to account for the GSA fee. The contractor shall be responsible for all required filings to GSA and for payment of this fee in accordance with applicable GSA instructions.

- 2. Acquisition, Contracting, and Technical (ACT) Fee.** The cost of awarding, administering and managing this BPA is included in the prices charged to ordering activities. The ACT fee is 2%. The contractor shall remit the ACT fee on a calendar quarterly basis (i.e. January – March, April – June, July – September, and October – December) or as otherwise requested by the Software Product Manager (SPM). Payment is due thirty (30) days following approval of the Report of Sales for the completed reporting period. ACT fees that have not been paid within the prescribed thirty (30) days shall be considered a debt to the United States Government under the terms of FAR 32.6. The Government may exercise all its rights under the contract, including withholding or setting off payments and interest on the debt (see contract FAR clause 52.232-17, interest). Failure of the Contractor to pay the ACT Fee in a timely manner may result in termination of the BPA.

- 3. Fee Distribution.** The Army, Air Force, DLA, DISA and Navy are participating in a fee-sharing program. The Contractor shall collect the 2% ACT fee and distribute in accordance with the following procedures. Fee sharing shall be determined by the End User Agency or Service identified in the quarterly Report of Sales. This field shall be notated Army, Air Force, DLA, DISA, Navy or DOD as appropriate. Fee checks shall not be issued until written approval is received for the Report of Sales.

3.1 ALL SALES:

The 2% ACT fee is split equally between the DoD Component whose customer places the order and the DoD Component that manages the ESI agreement. In other words, any Air Force order against an ESI agreement managed by the Navy results in a 1% portion of the 2% fee being returned to the Air Force acquisition organization (listed under Air Force Sales). The Navy will retain the entire 2% fee under orders issued for Navy activities or those activities that do not collect a fee under the ESI agreements managed by the Navy. The contractor is responsible for distributing the ACT fee to all applicable Services in accordance with the instructions herein. The amount of ACT Fee due the Navy shall be calculated at 1% for Army sales, 1% for Air Force sales, 1% for DLA sales, 1% for DISA sales and 2% for all other sales.
