OVERVIEW

The Air Force Oracle ESLA provides an unlimited license agreement for a core set of Oracle technology products and consolidates the vast majority of the Air Force's core technology maintenance stream. Oracle Advanced Customer Services are available as well as a catalog with established discounts for Oracle core technology products during the term of the contract. The ESLA will allow for improvements in Oracle license management, will accommodate use of Air Force Oracle software in a joint environment, and will replace multiple Oracle products approaching end-of-life.

Eligible entities on the ESLA include the US Air Force, including SAF Pentagon, except for the following entities which are excluded from the definition as used herein ("excluded entities"):

- SCI and/or Special Access Programs/Special Access Requirements (SAP/SAR)
- USTRANSCOM
- USCYBERCOM
- USSTRATCOM - J2 functional areas, Joint Functional Component Commands (JFCCs), Joint Task Force Support Command (JTFSC)
- Combatant Commands (J2 functional areas)
- Air Force A2 Intelligence Systems, and Air Force Intelligence Surveillance and/or Reconnaissance (AF-ISR) components including but not limited to AF-DCGS
- Military Intelligence Program (MIP) and National Intelligence Program (NIP) funded Air Force Programs outside of A2.
- "Internal and external business requirements" as authorized by the agreement shall exclude the Air Force intelligence mission.

United States Air Force

Oracle Enterprise Software License Agreement (ESLA)

Air Force Mythics License Orchestrator (MLO)

Under the terms of the ESLA, the Air Force will use Mythics License Orchestrator (MLO) as a centralized enterprise portal to request, acquire and effectively manage the Air Force's portfolio of Oracle products.

All authorized parties looking to leverage the Oracle ESLA Agreement:

- Go to <https://usaf.mythics.com>
- Create a user account with your .mil email address.
You will be notified when your account has been approved.

Highlighted features of the Air Force MLO include:

- Facilitating ordering by Air Force users via online forms accessible by desktop and mobile devices.
- Standard but customizable validation and approvals via a robust workflow management process and system.
- Powerful reports and dashboards on utilization, install base and cost avoidance.
- Centralized repository for all contacts, documentation, FAQ's and deliverables associated with the contract.
