

**AUTODESK DEPARTMENT OF DEFENSE
SOFTWARE LICENSE AGREEMENT**

This document sets forth the Department of the Defense (DoD) Software License Requirements. Licensor's Software License Agreement is attached hereto as Exhibit A and made a material part hereof by this reference. This document, including the Software License Agreement attached as Exhibit A: License and Services Agreement constitutes the Agreement between Autodesk, Inc. (Licensor) and the DoD. The terms and conditions set out below in these Software License Requirements, supplement, to the extent a conflict exists, supersede, and take precedence over the terms and conditions of Exhibit A. For clarification in this agreement, Publisher and Licensor are synonymous.

With regard to any conflict in license terms between the DOD ESI License Agreement and any GSA negotiated license agreement, the Order of Precedence is in the following order: 1) the DOD ESI License Agreement and 2) any GSA negotiated license agreement.

- 1. Enterprise Language:** The parties agree that more than one agency of the DoD may license products under this Agreement, provided that any use of products by any agency must be made pursuant to one or more executed purchase orders or purchase documents submitted by each applicable agency seeking to use the licensed product. The parties agree that, if the licensee is a "DoD Department or Agency" as defined by the 48 Code of Federal Regulations, section 202.101, and to include the Intelligence Community and the US Coast Guard, the terms and conditions of this Agreement apply to any purchase of products made by the DoD, and that the terms and conditions of this Agreement become part of the purchase document without further need for execution. The parties agree, in the event of any conflict between them, the terms of this Agreement supersede and take precedence over the terms included in any purchase order, terms of any shrink-wrap agreement included with the licensed software, terms of any click through agreement included with the licensed software, or any other terms purported to apply to the licensed software, including any Licensor's published policy or program documentation or customer ordering documents. It is also understood by both parties that, except as referenced or incorporated expressly in this Agreement, any Licensor policies, URLs referencing other terms, conditions or policies or educational documents will not be considered part of this license agreement.
- 2. Choice of Law/Venue:** This Agreement shall be governed by and construed in accordance with the substantive laws of the US Code of Federal Regulations, Federal Acquisition Regulations and Defense Federal Acquisition Regulations (DFARS), without regard to principles of conflict of laws.
- 3. Indemnification:** The DoD does not have the authority to and shall not indemnify any entity. The DoD agrees to pay for any loss, liability or expense, which arises out of or relates to the DoD's acts or omissions with respect to its obligations hereunder, where a final determination of liability on the part of the DoD is established by a court of law or where settlement has been agreed to by the DoD agency and the Department of Justice. This provision shall not be construed to limit the DoD's rights, claims or defenses which arise as a matter of law or pursuant to any other provision of this Agreement. This provision shall not be construed to limit the sovereign immunity of the DoD.

4. Patent, Copyright, Trademark, and Trade Secret Protection:

- a) The Licensor shall, at its expense, indemnify and hold the DoD harmless from any suit or proceeding which may be brought by a third party against the DoD, its departments, officers or employees for the alleged infringement of any United States patents, copyrights, or trademarks, or for a misappropriation of a United States trade secret arising out of performance of this Agreement (the "Claim"), including all licensed products provided by the Licensor. For the purposes of this Agreement, "indemnify and hold harmless" shall mean the Licensor's specific, exclusive, and limited obligation to (a) pay any judgments, fines, and penalties finally awarded by a court or competent jurisdiction, governmental/administrative body or any settlements reached pursuant to Claim and (b) reimburse the DoD for its reasonable administrative costs or expenses it necessarily incurs in handling the Claim. The DoD agrees to give Licensor prompt notice of any such claim of which it learns. The DoD has the sole authority to represent itself in actions brought against the DoD; however, to the extent allowable by law, the DoD shall give Autodesk control over the defense and settlement of any Claim. Licensor shall not, without the DoD's consent, which shall not be unreasonably withheld, conditioned, or delayed, enter into any settlement agreement which (a) states or implies that the DoD has engaged in any wrongful or improper activity other than the innocent use of the material which is the subject of the Claim, (b) requires the DoD to perform or cease to perform any act or relinquish any right, other than to cease use of the material which is the subject of the Claim, or (c) requires the DoD to make a payment which Licensor is not obligated by this Agreement to pay on behalf of the DoD. It is expressly agreed by the Licensor that, in the event it makes an appropriate request that the DoD to provide support to the Licensor in defending any such Claim, the Licensor shall reimburse the DoD for all necessary expenses incurred by the DoD for such support.
- b) The Licensor agrees to exercise reasonable due diligence to prevent claims of infringement on the rights of third parties. The Licensor certifies that, in all respects applicable to this Agreement, it has exercised and will continue to exercise due diligence to ensure that all licensed products provided under this Agreement do not infringe on the patents, copyrights, trademarks, trade secrets or other proprietary interests of any kind which may be held by third parties.
- c) If, in the Licensor's opinion, the licensed products furnished hereunder are likely to or do become subject to a claim of infringement of a United States patent, copyright, or trademark, or for a misappropriation of trade secret, then without diminishing the Licensor's obligation to satisfy any final award, the Licensor may, at its option and expense, substitute functional equivalents for the alleged infringing licensed products, or, at the Licensor's option and expense, obtain the rights for the DoD to continue the use of such licensed products.
- d) If any of the licensed products provided by the Licensor are in such suit or proceeding held to constitute infringement and the use thereof is enjoined, the Licensor shall, at its own expense and at its option, either procure the right to continue use of such infringing products, replace them with non-infringing items, or modify them so that they are no longer infringing.
- e) If use of the licensed products is enjoined and the Licensor is unable to do any of the preceding set forth in item (e) above, the Licensor agrees to, upon return of the licensed products, refund to the DoD the license fee paid for the infringing licensed products, pro-rated over a sixty (60) month period from the date of delivery plus any unused prepaid maintenance fees.

DoD Software License Agreement

- f) The obligations of the Licensor under this Section continue without time limit and survive the termination of this Agreement.
- g) Notwithstanding the above, the Licensor shall have no obligation under this Section 4 for:
 - (1) Modification of any licensed products provided by the DoD or a third party acting under the direction of the DoD;
 - (2) any material provided by the DoD to the Licensor and incorporated into, or used to prepare the product;
 - (3) use of the Software after Licensor recommends discontinuation because of possible or actual infringement and has provided one of the remedy's under (e) or (f) above;
 - (4) use of the licensed products in other than its specified operating environment;
 - (5) the combination, operation, or use of the licensed products with other products, services, or deliverables not provided by the Licensor as a system or the combination, operation, or use of the product, service, or deliverable, with any products, data, or apparatus that the Licensor did not provide;
 - (6) infringement of a non-Licensor product alone;
 - (7) the DoD's use of the licensed product beyond the scope contemplated by the Agreement; or
 - (8) the DoD's failure to use corrections or enhancements made available to the DoD by the Licensor at no charge.
- h) The obligation to indemnify the DoD, under the terms of this Section, shall be the Licensor's sole and exclusive obligation for the infringement or misappropriation of intellectual property.

5. Delivery: Publisher's delivery of the Products to DoD shall be by electronic download or as otherwise specified in Delivery Orders, FOB Destination.

6. Program Warranty: Licensor warrants for ninety (90) days from the date on which the Software specified in a Delivery Order Document is first used in production by Licensee that the Software will perform in all material respects the functions described in the Documentation when operated in accordance with the Documentation on a Supported Platform.

- a) **Noncomplying Product:** In the event DOD determines that the Product is a Noncomplying Product, during the 90-day period specified above, DOD will notify Licensor and Licensor will, at its option (i) attempt to correct or work around errors, if any, or (ii) to refund the license fees, if any, paid by Licensee and terminate this Agreement or the license specific to such Licensed Materials. Such refund is subject to the return, during the 90-day period specified above, of the Noncomplying Product, with a copy of the DoD's License Identification, to a local Autodesk office or the Reseller from which Licensee acquired the Noncomplying Product.
- b) **Publisher Remedies:** Licensee must report to Licensor in writing any breach of the warranties during the relevant warranty period. Licensor shall use commercially reasonable efforts to correct or provide a workaround for reproducible Software errors that cause a breach of this warranty or, if Publisher is unable to make the Software operate as warranted within a reasonable time considering the severity of the error and its impact on Licensee, Licensee shall be entitled to return the Software to Publisher and

DoD Software License Agreement

recover the fees paid by Licensee to Licensor for the license to the non-conforming Software.

- 7. Limitation of Liability:** The Licensor's liability to the DoD under this Agreement shall be limited to the greater of (a) the value of any purchase order issued; or (b) \$250,000. This limitation does not apply to damages for:
- a) Bodily injury;
 - b) death;
 - c) intentional injury; or
 - d) licensor's indemnity of the DoD for patent, copyright, trade secret, or trademark protection, which shall instead be limited to \$1,000,000.
 - e) any other matter for which liability cannot be excluded by law.

In no event will the Licensor be liable for consequential, indirect, or incidental damages unless otherwise specified in the Agreement. Licensor will not be liable for damages due to lost records or data.

- 8. Termination:** Licensor may not terminate this Agreement for non-payment from reseller.
- a) The DoD may terminate this Agreement without cause by giving Licensor thirty (30) calendar day's prior written notice (Notice of Termination) whenever the DoD shall determine that such termination is in the best interest of the DoD (Termination for Convenience).
- 9. Background Checks:** This term will be applicable only if required by local command policy and prior to the commencement of on-site professional services by Licensor employee who is proposed for assignment to perform services at your site or via remote access in or from the United States and only if the Licensor employee does NOT possess a Department of Defense ("DoD") performed National Agency Check with Inquiries ("NACI") or a DoD security clearance of SECRET or higher, Licensor, or its agent, will complete a criminal background check, or confirm that such a background check has been completed, on such employee. The criminal background check shall consist of a check of public records, to the extent available at the county level, where the employee has established credit in the United States as determined by a social security trace. The check is for felony and misdemeanor convictions within the seven (7) years preceding the date of the check. To the extent not prohibited by law, Licensor shall not assign any employee to perform such services for whom a criminal background check, at the time of its completion, uncovered conviction of a felony or conviction of a misdemeanor. In the event that DoD requires on-site support outside the United States, Licensor will make reasonable efforts to work with DoD in order to address its security concerns.
- 10. Confidentiality:** Each party shall treat the other party's confidential information in the same manner as its own confidential information. The parties must identify in writing what is considered confidential information.

DoD Software License Agreement

- 11. Publicity/Advertisement:** The Licensor must obtain DoD approval prior to mentioning the DoD or a DoD agency in an advertisement, endorsement, or any other type of publicity. This includes the use of any trademark or logo.
- 12. Territory:** Any Department of Defense (DoD) civilian or military installation or work site in the Continental United States (CONUS) or outside the Continental United States (OCOUS), regardless of where software was acquired.
- 13. Backup for User Documentation:** Licensor grants DoD to make a reasonable number of copies for DoD's internal business purposes. DoD is responsible for ensuring that all copyright notices, trademarks and other restrictive legends are maintained on such copies. DoD is also responsible for reporting to Licensor if DoD learns of the misuse or mishandling of User Documentation provided under the contract to DoD personnel, contractors or Government employees.
- 14. Transfers and Assignments:** Licensee is authorized to transfer or assign the Software or Licensee's rights in the Software, and such authorization would include sublicensing, assignment or transfer among or between DOD agencies, outsourcers, contractors (in support of the DoD mission) or Licensee, or authorize any portion of the Software to be copied onto or accessed from another individual's or entity's computer, only as explicitly provided in this Agreement.
 - a) Transfers: within the DoD and in the event that an Authorized User has a valid license under this Agreement and that Authorized User is reorganized or restructured such that its responsibilities and operations are transferred to another Authorized User agency, the agency shall have the right to assign the affected program licenses to a successor.
 - b) Assignments: Licensee is authorized to assign ownership of licenses when Licensee intends to designate an outsourcer, contractor (in support of the DoD mission), DoD Agency or other, as determined, to assume ownership of the license along Licensor written concurrence, except that Licensee may not assign ownership of licenses to a third party not within the DoD without the prior written consent of Licensor. All activities by such Assignee shall be subject to the Licensor's Software License Agreement as modified herein. Any deviation shall be subject to a separate agreement between Licensor and such Assignee, specifying conditions for the management and maintenance of the Software, which agreement shall not impose any more restrictive covenants than are provided to Licensee in the Licensor's Software License Agreement, as modified herein. The assignment of licenses will be without cost to any party involved in the assignment of licenses. It is further understood that Assignee will be responsible for all future software maintenance costs of any assigned licenses.
 - c) Licensee shall provide advance written notice to Licensor and complete any required Licensor documentation required to facilitate the transfer or assignment of license and continuation of support for the transferee or assignee. All license transfers or assignments will be without cost to the Licensee, provided that the licenses are current with regard to Licensor annual maintenance, and the Licensee does not re-market or otherwise intend to resell the licenses to be transferred.

It is inherently understood Licensee and the successor transferee or assignee agree to be bound to this Software License Agreement.

- 15. Rights of Survivorship of the Agreement.** This Agreement shall survive unto Licensor, its Successor, rights and assigns. The software and agreement terms and conditions as covered under this agreement shall survive notwithstanding the acquisition or merger of Licensor by or with another entity.
- 16. Audit Responsibilities:** This Section sets out the sole audit right under this agreement.
- a) DOD will maintain, and promptly provide to Publisher upon its request, but no more frequently than once in a twelve (12) month period, accurate records regarding use of the software by or for DOD. If DOD becomes aware of any unlicensed use of the software, DOD will notify Contractor and Publisher within 15 calendar days, providing reasonable details. The limit of DOD's responsibility for any unlicensed use of the software by any Users employed by or performing services for DOD is the requirement that DOD purchase additional licenses for the product through Contractor without any penalty or promptly stop using the software and delete any unauthorized copies.
 - b) DOD will perform a self-audit, upon the request of the Publisher, but no more frequently than once in a twelve (12) month period, and report any change in software program use (hereinafter "True up number"). The Publisher may make such a request of an individual agency of the DOD and will notify the DOD in the event of such a request. If the Publisher requests a self-audit from a DOD agency, a will not make another request of that agency for at least 12 months. Any self-audit, which shall be certified by a DOD employee authorized to do so, shall include, but not be limited to, the number of copies of the programs installed and/or in use by the DOD, the designated system(s) on which the programs are installed and/or running, and if applicable, the number of users of the programs. DOD shall notify Contractor and Publisher of the True up number no later than 90 calendar days after completion of the self-audit. If the self-audit finds that DOD is under-licensed, DOD will either 1) cease use of the quantity in excess of the DoD licensed quantity and work with the Publisher and Contractor in good faith to account for such excess use or 2) make an additional purchase of the product through Contractor, wherein such pricing is in accordance with any current ESI pricing. The procurement of additional licenses, if required, will transpire no later than 60 days after DOD's aforementioned notification. There will be no penalties involved in the procurement of the additional licenses.
- 17. Net-Centricity:** The Department of Defense is transforming the way information is managed to accelerate decision-making, improve joint war fighting and create intelligence advantages. To reach this "Net-Centric" state, DoD must exploit advancing technologies that move the enterprise from an application centric to a data-centric paradigm. DoD ESI Contractor partners are encouraged to use the OSD NII DCIO Net-Centric Checklist, located at: http://DoDcio.defense.gov/Portals/0/Documents/NetCentric_Checklist_v2-1-3_.pdf to provide information on the Net-Centric posture of their IT products and services. Software products offered to and purchased by the DoD and Intelligence Community shall be licensed by the software publisher without restriction to information sharing among the DoD and IC in performing their missions.
- 18. Section 508 of the Rehabilitation Act Compliance:** All products and services provided under this agreement must meet the applicable accessibility standards at 36 CFR Part 1194 as required

by FAR Case 1999-607. General information regarding the Section 508 Act can be found at the web site www.section508.gov. The Publisher's Section 508 compliancy information must be readily available at the Publisher's website.

- 19. Orders:** Any term or condition in an order to be placed that will expressly supersede a term or condition of this agreement must be approved in writing via email by the designated DOD PCO for this ESI BPA, a copy of which shall be attached to such order. Any term or condition in an order that has been placed that expressly supersedes a term or condition of this agreement is ineffective unless subsequently agreed to in writing via an email by the designated DOD PCO for this agreement attached to the order with an Administrative Modification.
- 20. Temporary Use of Software During Times of Conflict and/or Natural Disaster:** As part of Temporary Expeditionary Deployments (TEDs), during the term of this Agreement, DoD may temporarily deploy and install or use on, or access from qualified desktops or servers, a reasonable number of Licensor software products in addition to those previously licensed pursuant to this Agreement at no additional cost ("TED Licenses"). TEDs are limited to deployments away from in-garrison locations (any military post or government office where troops or civilian government personnel are at a permanent location), war games, exercises, real world contingencies, and emergency situations similar to the initiated domestic terrorist attacks of 19 April 1995 (i.e., the Timothy McVeigh Terry Nichols perpetrated 'Oklahoma City Bombing' involving the Alfred P. Murrah Federal Building'); the initiated international terrorist attacks, perpetrated on American soil, on 9/11/2001; and finally, the national inclement weather natural disasters perpetrated by Hurricane(s) Katrina and Rita during the August and September months of Calendar Year 2005, where temporary duty stations (TED's) and continuity of operations (COOP) alternative venues or sites were needed, for a substantial period of time, due to the destruction of federal or U.S. Government facilities, infrastructure, offices and work spaces. For licenses connected to a DoD network server, on a semi-annual basis, Licensor shall provide an additional temporary license pool equal to the quantity of network versions purchased, which may be accessed during a TED event. For computers not connected to a DoD network server, The Licensor shall provide, on a quarterly basis, a pre-activated temporary (ninety) 90 day single seat network license which can be copied for use on any number of computers. After the TED, or six (6) calendar months, whichever is shorter ("Temporary Use Period"), unless a different time period is agreed to in writing by the Licensor, the DoD will provide a written certification that the TED Licenses have either been removed from service, or payment has been made under this Agreement to purchase additional perpetual licenses equal to the number of TED Licenses not removed from service. DoD agrees to use the TED Licenses in accordance with the terms contained in this Agreement and the applicable version of the Software License Agreement.
- 21. Software Asset Management & ISO-IEC 19770:2015 Series:** To the extent required by DoD policy at the time of execution of this ESI BPA, the Licensor shall, within a commercially reasonable time after execution, provide to DoD all files necessary to comply with ISO 19770:2015 Series Standards for all installable or distributable software products governed by this agreement. If any part of the ISO-IEC 19770:2015 standard is not approved by the ISO International Standards Committee at the time of contract execution, the Licensor shall make commercially reasonable efforts to comply with the standard upon approval by ISO.

DoD Software License Agreement

- 22. Authorized Users:** An Authorized User includes authorized DoD government employees (military, civilian, reserves, national guard), contractors, non-human devices, detailed individuals that are included and accounted for in the DoD in support of DoD missions and those individuals or non-human devices who have access to, use or are tracked by Licensor's programs, and who are Licensee's Personnel as defined in the Software License Agreement.
- 23. Data Sharing/Transfer:** Data transfer is: Batch Processing, Multiplexing and Flat File Environments. In accordance with this license, DoD and authorized users associated with the DoD missions shall have rights to share, access, transfer and manipulate data generated by the DoD or its authorized users or output by Software during the DoD's or its authorized users' use of Software licensed under this agreement. The parties agree that as long as this license remains valid, the transfer of such data or the sharing of such data is unrestricted.
- 24. Data Recovery and Virtualization:**
- a) Data Recovery methods include four types of environments: Backup, Failover, Standby, and Remote Mirroring. All types of Hot Backup Servers, utilized as set forth in Licensor's Software License Agreement, will not require additional licenses as long as the number of data recovery servers equals the number of primary servers.
 - b) For virtualized servers, where Licensor has authorized virtualization, both parties agree that only the primary server must be licensed. It is understood that advanced virtualization functions (soft partitioning including live migration) are incorporated herein by expressed written reference and by this license agreement. Thus, where Licensor has authorized virtualization, no additional licenses will be required to accommodate future data recovery and virtualization commercially accepted methods or practices.
- 25. Shelf Ware:** It is recognized, that in some instances, DoD may have excess Licensor software licenses that are not currently being used or needed by DoD. These licenses are commonly called Shelf Ware. At DoD's sole discretion, the DoD may transfer any these licenses as described in Section 14 of this document or DoD may terminate the license grant, as it deems necessary. The termination or transfer of licenses may result in a reduced license count and will be deducted from the next annual maintenance payment, in a prorated method. In no event, when a subset of licenses is terminated or if the level of support is reduced, support for the remaining licenses will not change in services or result in any type of fee recalculation.
- 26. Third Party Software:** Notwithstanding anything to the contrary, the Government shall not be subject to third party terms and conditions that are contrary to Federal law.
- 27. Additional Functionality:** Any additional functionality provided on Licensor Products shall not impose additional license terms and/or fees on the Government.
- 28. License copies for training and evaluation.**
During the term of this agreement (including any renewal term), an agency (as defined locally) may (i) run up to 50 complimentary copies of any additional product in a dedicated training facility on their premises; or (ii) run up to 10 complimentary copies of any product that the Licensor make available to license as an additional product for a 120-day evaluation period.

- 29. Finality of Terms:** This agreement and any attachments to this agreement will be the sole document governing the granting of licenses between DoD and Licensor. There shall be no changes to this license agreement unless agreed to by both parties in writing.
- 30. Software Titles Incorporated by this License Agreement:** All software titles sold by Licensor through the DoD ESI BPA will be subject to this agreement, including any and all other software or software title which may be added through Licensor's in-house development or corporate acquisition. It is the DoD's anticipation this agreement will cover any and all software companies Licensor may purchase in the future, to the extent such companies' products are offered by Licensor or its reseller through the DoD ESI BPA.
- 31. Use of this Agreement by the Federal Government:** The parties agree that, if a federal agency implements another contracting vehicle for Licensor's products, and if the licensee is an agency of the Federal Government, then, the terms and conditions of this Agreement can apply to any purchase of software products by that agency, and that the terms and conditions of this Agreement become part of the purchase document without need for further execution. Additionally, should a Federal Government Agency desire to use this agreement, it will be without remuneration to any party.
- 32. DoD Enterprise License:** The parties agree, that in the spirit of cooperation, there may be an instance, during the course of this agreement, where DoD desires an Enterprise Agreement with the publisher. The parties agree that all will work towards implementation of a DoD Enterprise Agreements, that all terms contained in this agreement may become part of the Enterprise Agreement and the DoD and Publisher will work cooperatively on issues that may hamper such an agreement (legacy licenses and the accompanying support, Right-sizing the enterprise and so on).
- 33. Virtualization:** This section shall apply only to licensed products for which Licensor has authorized virtualization. Publisher recognizes Virtualization through partitioning. Should DOD desire to implement virtualization for Publisher's software programs licensed pursuant to this agreement, partitioning shall be defined and executed as follows:
- a) Soft Partition (also called Software Partition): Soft Partition means to partition the operating system using system resource managers that limit the number of CPUs running Publisher Programs. Soft Partitioning creates areas within the same operating system where CPU resources are specifically allocated to respective applications.
 - b) Hard Partition (also called Hardware Partition): Hard Partition means to partition the server by physically separating the processors of a single server into distinct smaller servers, each of which acts as a physically independent, self-contained server, typically with its own dedicated CPUs, operating system, separate boot area, memory, input/output subsystem, and network resources.
 - c) Implementation: If DOD partitions through either Soft Partitioning or Hard Partitioning then DOD is only required to license programs for the partitions on which DOD will be installing and/or running the software.

- 34. Deployment and Use of Perpetual, Subscription or Term Licenses in a Cloud Computing Environment:** Any licenses acquired under this agreement will have a perpetual Cloud Grant. DOD may deploy and use any quantity of its perpetual or term Publisher licenses in any cloud computing environment (private or public) and with any third-party cloud service provider. The use of DOD licenses is limited to the mission and business of the DOD. The DOD retains all ownership responsibilities of the licenses. The DOD will maintain records of license deployment.
- DOD may transfer its perpetual and term Publisher licenses between on-premises data centers and third party cloud service providers or to other third party cloud service providers without charge, limitation, or change in functionality. The DOD shall have the right to determine the version level for transfers.
- 35. Ineffective Provisions:** If any document incorporated by reference into this agreement, and/or referenced therein, contains a provision (a) allowing for the automatic termination of your license rights or technical support services; (b) allowing for the automatic renewal of services and/or fees; and/or (c) requiring the governing law to be anything other than Federal law, then, such terms shall not apply and shall have no effect. If any document incorporated by reference into this agreement, including additional terms and conditions included and/or referenced therein, contains an indemnification provision, such provision shall not apply as to the United States indemnifying the Publisher or any other party.
- 36. Professional Services:** Publisher may subcontract all or part of the Services to be performed, to a qualified third party only with the explicit written acceptance of the Licensor. Any subcontracting of services must be noted on the Order Form and acknowledged in the customer's delivery order.
- 37. Parallel Operations:** For no additional cost, the DOD agency shall have the ability to run Publisher's software on parallel systems for up to 180 days, or a longer mutually agreed upon timeframe, for system migrations, testing, and/or hardware refreshes. The DOD will ensure the duplicate Instances required during the Parallel Operation period are uninstalled and deleted once the parallel operation is no longer required. The DOD will only request the ability to run the same number of license Instances that are currently owned by the DOD. If additional licenses are required than the quantity owned by the DOD agency, the DOD will acquire the necessary licenses.
